Profile

Cloud Computing Engineer from CY-TECH (Class of 2026), passionate about software solutions and scalable cloud architectures. Comfortable with agile methodologies, I combine rigor, curiosity, and autonomy to design efficient applications from design through deployment. Always eager to learn and take on new technical challenges.

Skills

- **Languages:** Java • Java EE • Python • C • C++ • C# • R • Scala • Visual Basic • PHP • JavaScript • TypeScript
- **Frontend:** React • Angular • HTML • CSS • Tailwind CSS • Bootstrap • Electron
- **Backend & Databases:** Node.js • MySQL • PostgreSQL • Oracle • MongoDB • SQL • NoSQL • Kafka
- **Cloud & DevOps:** AWS • Google Cloud • Microsoft Azure • Firebase • Docker • Linux • Windows • MacOS
- **Tools:** GitHub • GitLab • VS Code • IntelliJ IDEA • RStudio • PowerShell • Packet Tracer • Jira • Confluence
- **Other Skills:** Networking (VLAN, ACL, Routing) • Virtualization (VirtualBox, VMware)

Interests

- Video games (RDR2, EA FC, Valorant)
- Photography
- Surfing

Experience

March 2026 – Present
Atos - Pessac, France
Full Stack Developer

- Designed and developed full-stack (Angular, Spring Boot) modules for a next-generation ERP built on a microservices architecture.
- Implemented event-driven inter-service communication via Apache Kafka and integrated cloud services (AWS S3).
- Designed an interactive voice agent (AWS Transcribe, AWS Polly) and built automated benchmarking for containerized AI models (Docker) on AWS EC2 GPU instances.
- Managed the full development lifecycle (analysis, unit testing, pull requests, code reviews) within an Agile Scrum team.

April – August 2025
INFOSAT – Agadir, Morocco
Web Developer (Internship)
Developed web and desktop applications (Java, JEE, Angular, PHP). Deployed and administered virtualized servers under Proxmox, including network configuration and services.

October 24, 2024
ATILLA-CY Tech Hackathon, France
Junior Team Manager for a Hackathon
Managed a team of 6 during a hackathon. Coordinated and tracked the development of an FPS game in Python.

Education

2023 – 2026
CY Tech Engineering School – Pau, France
Engineering Degree – Cloud Computing Engineering

2019 – 2020
Faculty of Sciences – Fez, Morocco
Bachelor's Degree – IT & Software Engineering

Certifications

- Clever Cloud Cloud Concepts 101
- TOEIC (875/990)
